MARINE PRO PPF

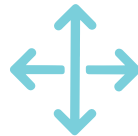

PREMIUM SURFACE PROTECTION SYSTEMS

We create and deliver professional Paint Protection Film solutions for the marine sector across Europe. Transparent and colored premium-grade protection films designed to keep your yacht looking flawless.

Premium Protection

Protection from scratches, UV, and saltwater. Thickness range: 160–340 µm

Flexibility & Adaptation

Various options allow tailoring protection to specific surfaces and applications.

Full Color Range

250 shades and different surface finishes for a personalized and unique effect.

Local Repairability

Damaged sections can be locally replaced without removing the whole film.

Easy Maintenance

Hydrophobic coating prevents dirt build-up and makes vessel cleaning simple.

Material Efficiency

Order by the square meter or get rolls customized to your needs – no waste.

GLOBAL SERVICE

AUTHORIZED APPLICATION NETWORK

Thanks to our network, we provide comprehensive **service support** – from local repairs to complete restoration of PPF protective layers, ensuring that every yacht looks impeccable for years.

We offer specialized **training**, enabling our partners to gain knowledge and hands-on skills in applying Marine Pro PPF films – both transparent and colored.

We also take care of **logistics** – providing express shipping of films and accessories anywhere in Europe, supporting shipyards, fleet owners, and private yacht owners alike.

Marine Pro PPF is quality you can rely on – from training and certification to service and fast delivery.

OUR PPF PRODUCTS

PRO LINE

5-YEAR WARRANTY 190 μm

Over 25 PPF colors in various finishes.
Self-healing, durable, and hydrophobic.

Hydrophobic

Self Healing

Non-Yellowing

High Stretchability

99% UV-Blocking

Impact Resistant

PRO LINE

5-YEAR WARRANTY

Thickness: **190 microns (7.5 mil)**

Applications: premium yachts
high-gloss enhancement

A premium-grade product designed for demanding applications. It highlights the depth and shine of the surface while providing superior protection.

Features enhanced hydrophobicity, full clarity, and exceptional gloss.

1.8 x 15M 1.5 x 24M 0.75 x 24M
1.5 x 15M 1.0 x 24M 0.5 x 24M

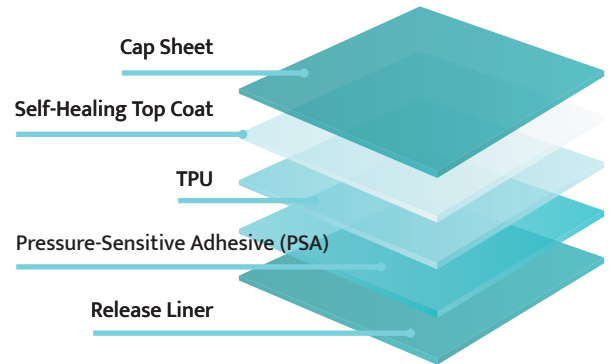

STANDARD LINE

5-YEAR WARRANTY

Thickness: **160 microns (6.5 mil)**

Applications: protection of charter yachts
large surfaces

An easy-to-apply, highly flexible film that ensures precise coverage of extensive areas and complex curves. The perfect choice for everyday protection of yachts and intensively used vessels.

MAX

10-YEAR WARRANTY

Thickness: **210–340 microns (8.5–12 mil)**
Applications: protection of high-wear and impact-prone surfaces

One of the thickest PPF films on the market – offering up to 10 years of warranty. Designed for technical areas and working components requiring extreme durability and resistance.

**LAYERED
TO THE MAX**

SPF LINE

5-YEAR WARRANTY

Thickness: **190 microns (7.5 mil)**
Applications: UV protection

Shade – 70%
Headlights – 90%
UV protection – 99%

Reduces cockpit heat build-up, ensuring greater comfort and safety.
Provides maximum UV protection without darkening effects.

MATTE

5-YEAR WARRANTY

Thickness: **190 microns (7.5 mil)**
Applications: premium protection with
a matte finish

Transforms glossy surfaces into elegant matte without damaging the substrate. Resistant to grease and deposits. Applied over high-gloss finishes, it redefines the vessel's aesthetics, opening new possibilities for personalization and design.

**MAKE IT
MATTE!**

TRUE COLOR 250+

5-YEAR WARRANTY

Thickness: **190 microns (7.5 mil)**
Applications: color customization
and protection

More than **115 color options** and finishes:
Gloss, Matte, Carbon, Chameleon, Metallic,
Flake, Classic hues inspired by the premium
automotive palette.

MADE TO FIT YOUR NEEDS

PROTECTION SYSTEM

The **MARINE PRO PPF** Protection System is an advanced **TPU** (Paint Protection Film) line, created to withstand the toughest marine environments. Designed for yachts and boats, these films combine cutting-edge technology with exceptional durability, delivering reliable protection even in the harshest sea conditions.

Our films are characterized by:

- High hydrophobic properties – making surfaces easier to clean and maintain.
- Excellent elasticity and tensile strength – ensuring long-lasting durability of the application.
- Reinforced adhesive – providing secure and stable bonding even in extreme conditions.
- Innovation – with a product portfolio of over 150 variants and 120 color options, continuously expanded with new shades.

Thanks to these features, **MARINE PRO PPF** is a pioneer in the market of protective films dedicated to watercraft.
